

Foster Reminder Sheet

Resource Page

Bookmark this page: www.heschatt.org/activefoster
YOU WILL NEED IT. It has important forms, appointment scheduling, and resources. Also shortcut link:
www.linktree.com/hesfoster

Availability

Update your availability so we know when you can take animals. Complete this form each time your current fosters come back or get adopted.

Vaccines and Preventions

Schedule your vaccine appointments the day you pick up so you do not forget. Write on your calender when they are due for heartworm meds and flea/tick. Go ahead and schedule supply pick up if it helps remind you.

Foster Pet Personality Form

Adoption personality profiles are very important. We need photos and personality info to get these animals adopted. Located on resource page. They will be featured on social media so the more info the better.

Supply Pick Ups

Scheduling supply pick ups help us be sure to have supplies ready for you. The room beside the foster coordinator office is where you can pick up. We always have pellet litter and dry food available if you show up and didn't schedule.

Medical Appointment

A routine care appointment is just for vaccines. If you have a medical issue, please schedule a medical appointment i.e., upper respiratory infection, diarrhea, lethargy, weight loss, etc. If you aren't sure, just ask prior to arriving.

Outside World

Puppies need to be kept inside only until they have had two vaccines. Concrete /deck area at your home is fine. No high traffic areas for puppies even after two vaccines. No dog parks or off leash for dogs. Cats/kittens are NOT allowed outside.
