

# Bonded Pair Cat Form

Cats' Names & ID Numbers:

First Cat: \_\_\_\_\_

Second Cat: \_\_\_\_\_

Bonded cats typically display specific behaviors when they are together. Please mark all of the following behaviors shown by both cats being evaluated as a bonded pair:

\_\_\_\_\_ Walking together or touching constantly. They may even entwine their tails.

\_\_\_\_\_ Rubbing their faces on one another in order to spread their scents.

\_\_\_\_\_ Grooming one another often.

\_\_\_\_\_ Sleeping or napping together often.

\_\_\_\_\_ Calling to one another when apart.

\_\_\_\_\_ Playing well together and putting themselves in vulnerable positions, such as exposing their bellies.

Cats who are bonded do not exhibit the following behaviors together:

Hissing

Fighting

Resource Guarding

Behaving Aggressively/Fighting

If either cat shows the above behaviors around the other, they are NOT a bonded pair.
